MICHAEL COPPEL PRESENTS..

Lady Gaga returns to Australia in March 2010 for a much-demanded headline tour.

The Australian tour will feature a spectacular new arena production and full band.

Following her spectacular performances with The Pussy Cat Dolls earlier this year, the divine Ms. Gaga has been tearing up stages around the world.

During August she was one of the stars at both Japan's Summersonic Festival and the UK's V Festivals and will shortly be undertaking a co-headline U.S. tour with Kanye West. 2009 has been hailed in the Year of Gaga and the enigmatic superstar broke records and topped charts around the globe.

Debut album *The Fame* reached the top ten in over 20 countries worldwide, with Australia the first to embrace the inexplicable Lady Gaga, clocking up triple platinum sales in just a few months as she placed five singles in the top 50 selling Australian singles of this year.

Lady Gaga's debut boasts massive hits – the latest *paparazzi*, and previous infectious ARIA #1's *Just dance* and *Poker Face*. Back home in the US, Lady Gaga became the 1st artist in nearly 10 years to reach the summit of the Billboard Hot 100 with her first two chart entries, and became only the 3rd artist in the 16 year history of the Mainstream Top 40 airplay chart to collect three #1 songs from a debut album – *Just Dance*, *Poker Face* and *LoveGame*.

While Lady Gaga sets the charts alight, it's on stage where her story truly comes to life. A shifting arts cape of the past, present and future, a live performance by Lady Gaga leaves you wondering how music survived without her.

Lady Gaga floored those in attendance during her recent Australian Tour.
