Western Australia is a great place to do business. We are leading the nation in business confidence and have been consistently high economic performers.

Western Australia entered the global downturn later than most other developed economies and now, with new resource projects on the horizon and plans for extensive Government infrastructure spending, we are well placed for the next period of sustained economic growth.

The Small and medium sized business sector in Western Australia is a very significant to our State, in terms of economic contribution and job creation.

For this reason, the Government is keen to encourage and support business owners and operators in their endeavours to become better equipped with the skills necessary to grow their business. A resilient business is a successful business.

“A day and a half of information & inspiration for small business, comprising a trade show of 40 local providers of B2B products and services, together with a program of over 20 business development seminars (2 concurrent seminars per hour.)”
